

QGIS Application - Bug report #7298

Intersect strange results

2013-03-09 12:16 PM - Stephane Goldstein

Status: Closed	
Priority: Severe/Regression	
Assignee:	
Category: Processing/QGIS	
Affected QGIS version: master	Regression?:
Operating System: Windows	Easy fix?:
Pull Request or Patch Applied:	Resolution:
Crashes QGIS or corrupts data:	Copied to github as #: 16300
Description	
<p>Hi.</p> <p>I was intersecting lines with polygons and was getting strange results.</p> <p>I used the exact same procedure in QGIS 1.8 and in QGIS 1.9</p> <p>It works perfectly in 1.8.</p> <p>In QGIS 1.9 the lines are splitted, but some of them don't take the attributes from the right polygon.</p> <p>Here on QGIS 1.8: http://tinypic.com/r/3586grd/6</p> <p>Here on QGIS 1.9: http://tinypic.com/r/swbmvo/6</p> <p>The files used and the results are attached.</p>

I'm sorry. I had forgotten to put a link.

There is a pull request to fix this issue: <https://github.com/qgis/Quantum-GIS/pull/713>

#2 - 2013-07-13 09:10 PM - Minoru Akagi

- Status changed from Open to Closed

Fixed in changeset commit:"6088fd713e146f5d760f8c9d41d58eff11af7a79".

#3 - 2017-05-01 01:22 AM - Giovanni Manghi

The "ftools" category is being removed from the tracker, changing the category of this ticket to "Processing/QGIS" to not leave the category orphaned.
