

QGIS Application - Bug report #7362

No qml file is created when saving style for csv layer

2013-03-15 06:16 AM - magerlin -

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Symbology	
Affected QGIS version:	1.8.0	Regression?: No
Operating System:	Windows	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: fixed
Crashes QGIS or corrupts data:	No	Copied to github as #: 16336
Description		
<p>By using "Add delimited text Layer" I can use a csv point file very much like if it was a shapefile.</p> <p>I can also set the styles in the Properties/style pane but when I try to save the style no .qml file is created.</p> <p>I get no error messages but no .qml file either.</p> <p>The "Save As Default" button works well.</p> <p>I have tested with several csv files and get same problem.</p> <p>Other user have reproduced the error like me in win 7 both version 1.8 and dev.</p> <p>The problem seems not to exist on Linux.</p> <p>Se more details on OSGEO here:[[http://osgeo-org.1560.n6.nabble.com/Unable-to-save-style-for-csv-layer-td5040564.html]]</p>		

History

#1 - 2013-03-15 06:23 AM - Giovanni Manghi

- Affected QGIS version changed from master to 1.8.0
- Status changed from Open to Feedback

It works perfectly on qgis master, please test and report back. Cheers!

#2 - 2013-03-17 11:58 PM - magerlin -

Just installed 1.9.0-Master 5d42734.

Exactly same issue here - no qml file is created.

#3 - 2013-03-18 06:37 AM - magerlin -

In my first report I wrote "The "Save As Default" button works well".

This is not completely right - Size Scale field settings are not stored in the qml-file.

#4 - 2013-09-27 04:15 AM - Giovanni Manghi

- Resolution set to fixed
- Status changed from Feedback to Closed

it works fine on qgis 2.0, please reopen if necessary.
