

QGIS Application - Bug report #7438

No warning when 10 digit max on integers is over done

2013-03-25 08:46 AM - magerlin -

Status: Closed	
Priority: Normal

Affected QGIS version: 1.8.0	Regression?: No
Operating System: Win 7	Easy fix?: No
Pull Request or Patch supplied: No	Resolution: duplicate
Crashes QGIS or corrupts data: No	Copied to github as #: 16399

Description

I've been trying to calculate an area into an integer not being aware of the 10 digit limit on integers in a shape file.

The field calculator returned a negative area which made me aware of something being wrong.

I think some kind of warning should be given - if the number had been positive I might not have noticed the error.
