

QGIS Application - Bug report #7470

Fail to prompt document save after print composer changes

2013-03-28 01:07 PM - John Tull

Status: Closed	
Priority: Normal	
Assignee:	
Category: Project Loading/Saving	
Affected QGIS version: master	Regression?: No
Operating System: OS X	Easy fix?: No
Pull Request or Patch Applied: No	Resolution:
Crashes QGIS or corrupts data: No	Copied to github as #: 16423
Description	
<p>When opening a document then a composer item, making changes to the composer does not dirty the document. If you quit QGIS after only changing composer items, there is no prompt to save the document and those changes are lost.</p> <p>Steps:</p> <ol style="list-style-type: none">1) Open existing qgis project with at least one composer item.2) Open the composer item and make changes, e.g., add or move a scale bar.3) Close the composer item.4) Quit QGIS. <p>Not from dakcarto: "creating/deleting composers marks the project as dirty. this should be a simple fix, with a connection to indexChanged on the mUndoView"</p>
