

QGIS Application - Bug report #7572

QGIS doesn't load the default selection color on start [regression]

2013-04-11 06:29 AM - Borys Jurgiel

Status: Closed	
Priority: Severe/Regression	
Assignee:	
Category: Map Canvas	
Affected QGIS version: master	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution: duplicate
Crashes QGIS or corrupts data:	Copied to github as #: 16512

Description

Let's assume the default selection color in QSettings is set to yellow. After opening QGIS with no project, the selection is black. After pressing the "New project" button the problem is gone (the color is set).

It's a regression.
