

QGIS Application - Bug report #7606

"Update options" doesn't work in DBManager if the input dropdown menu has never been touched

2013-04-14 03:09 AM - Emilio Loi

Status: Closed	
Priority: Low	
Assignee:	
Category: DB Manager	
Affected QGIS version: master	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied: No	Resolution:
Crashes QGIS or corrupts data: No	Copied to github as #: 16534
Description	
<p>In DBManager try to import a vector layer. The "Input" dropdown menu shows, as first choice, a vector layer name that's loaded in the project. If the dropdown menu has never been touched, clicking on "Update options" button causes a log message "Data source is invalid" because no layer has been selected.</p>
