

QGIS Application - Bug report #7623

Layers out of order

2013-04-15 07:33 PM - Aren Cambre

Status:	Closed	
Priority:	Severe/Regression	
Assignee:	Jürgen Fischer	
Category:	GUI	
Affected QGIS version:	master	Regression?: No
Operating System:	Windows, Linux	Easy fix?: No
Pull Request or Patch applied:		Resolution:
Crashes QGIS or corrupts data:		Copied to github as #: 16546
Description		
<p>In QGIS 1.9 (051fe31), the layers are out of order. I've attached both a screen print showing the bottom layer on top in the final rendering. I also attached the .qgs file.</p> <p>Note that the .qgs file is from 1.8.0 final release, and I got that dialog warning me that it will be converted to 1.9's format.</p>		

Associated revisions

Revision fc58edd6 - 2013-05-25 05:35 PM - Jürgen Fischer

legend updates:

- when enabling explicit drawing order, initially take legend order
- when loading projects with explicit drawing order enabled, verify that the order is actually fully set and take legend order otherwise (fixes #7623)
- store/restore active layer

History

#1 - 2013-04-16 01:03 AM - Giovanni Manghi

- Status changed from Open to Feedback

please check the "layer order" panel.

#2 - 2013-04-16 12:14 PM - Aren Cambre

The order in the **Layer order** panel is the exact opposite of the order in the **Layer** panel. It's as if that got reversed upon import.

#3 - 2013-05-24 04:31 AM - Andreas Neumann

- Priority changed from Normal to Severe/Regression

I think this should be a blocker. But it is still unassigned. We should find a developer who can fix it.

#4 - 2013-05-24 05:54 AM - Sandro Santilli

- Operating System changed from Windows to Windows, Linux

- OS version changed from 7 x64 to Windows7 x64, Ubuntu 12.04 x64

More info:

Right-click menu shows "Update drawing order" is unchecked,
if I check it things work as they used to (top layer is rendered on top);
unchecking it again that order is swapped.

Activating the layer ordering panel indeed shows that items in
that panel are always following changes in the layer panel, so
to be always in the reverse order of the latter. Funny :)

#5 - 2013-05-24 08:34 AM - Jürgen Fischer

- Assignee set to Jürgen Fischer

#6 - 2013-05-25 08:35 AM - Jürgen Fischer

- Status changed from Feedback to Closed

Fixed in changeset commit:"fc58edd6310e01e6b7143c91f60099b18e51daa8".
