

QGIS Application - Bug report #7634

QGIS master crashes on Windows 7

2013-04-17 08:57 AM - Antonio Locandro

Status: Closed	
Priority: Normal	
Assignee:	
Category:	
Affected QGIS version: master	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied: No	Resolution: worksforme
Crashes QGIS or corrupts data: Yes	Copied to github as #: 16556
Description	
Every time I hit the Add Vector layer on an empty project it crashes after I hit the browse button, the work around is to create a new shapefile and then it works. No idea what this would happen but it shouldn't

if confirmed this must me tagged as blocker, thanks!

#2 - 2013-04-17 09:19 AM - Jürgen Fischer

not reproducible here.

#3 - 2013-04-17 09:31 AM - Antonio Locandro

I am using OSGEO4W to install, if not reproducible on your parte Jurgen do you know what should I do to fix my installation?

Not really, but [DebugView](#) might produce output sheds some light.

#5 - 2013-04-17 12:23 PM - Antonio Locandro

- File qgis.log added

Ok so I used the Debugview, but have absolutely no clue what to look for so I attached the log maybe someone with a keen eye can help

Thanks, unfortunately nothing stands out. I suppose a log from a run with creating a shapefile before the hitting "browse" would also show anything useful. Do you have mapped network drives or any other special disk devices - or maybe recently removed any?

#7 - 2013-04-17 01:02 PM - Antonio Locandro

- File *qgis_log2.LOG* added
- File *qgis_log3.LOG* added

Ok *qgis_log2* is creating first the shapefile, then it works ok
qgis_log3 is opening master again and just hit the add vector dialog then it works ok

It seems to be random crash after you create a shapefile, sometimes it works sometimes it crashes.

I do have do folders mapped as networks but do no work on them with QGIS for now

#8 - 2013-04-17 01:23 PM - Jürgen Fischer

Try without any third party plugins, please.

#9 - 2013-04-30 08:25 AM - Antonio Locandro

Just letting you know it apparently works ok now, no problems for the last 2 days

#10 - 2013-06-28 01:16 AM - Giovanni Manghi

- *Resolution set to worksforme*
- *Status changed from Open to Closed*

reopen if necessary.
