

QGIS Application - Bug report #7713

qgis mapserver on Windows does not accept "\\\" in project paths

2013-04-25 03:29 PM - Giovanni Manghi

Status: Closed	
Priority: Normal	
Assignee:	
Category: QGIS Server	
Affected QGIS version: 1.8.0	Regression?: No
Operating System: Windows	Easy fix?: No
Pull Request or Patch supplied: No	Resolution: invalid
Crashes QGIS or corrupts data: No	Copied to github as #: 16624
Description	
the url	
http://localhost/cgi-bin/qgis_mapserv.fcgi?map=c:/temp/teste18.qgs	
works, while	
http://localhost/cgi-bin/qgis_mapserv.fcgi?map=c:\\temp\\teste18.qgs	
does not. The error message is	
"(No error code was reported) The WMS vendor also reported: Configuration file problem : perhaps you left off the .qgs extension?"	
and to make it work it is necessary to select the checkboxes "Ignore GetMap... and Ignore GetFeatureInfo...".	
Is this the correct behavior?	

History

#1 - 2014-01-30 11:41 PM - Paolo Cavallini

- Target version changed from Version 2.0.0 to Future Release - High Priority

#2 - 2014-06-20 06:44 AM - Giovanni Manghi

- Resolution set to invalid

- Status changed from Open to Closed

I guess it is by design.
