

QGIS Application - Bug report #7737

WMS tiles are always fetched from server, never from cache

2013-04-29 07:46 PM - Nyal Dawson

Status: Closed	
Priority: Severe/Regression	
Assignee:	
Category: Web Services clients/WMS	
Affected QGIS version: master	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied: No	Resolution: invalid
Crashes QGIS or corrupts data: No	Copied to github as #: 16643

Description

Every request for a WMS tile results in a cache miss - even with no changes to zoom or map extent.

I've tracked this down to commit 6c3f418988fa9d60d36cf1a511db9b3ecf2f46b9 . My guess is it's related to the change from .qgis -> .qgis2.

History

#1 - 2013-04-29 08:13 PM - Nyal Dawson

- Resolution set to invalid
- Status changed from Open to Closed

Actually - I think this was caused by a permission issue on my .qgis2 folder. Resetting the permissions has fixed this for me.
