<b>Description</b>		
<p>After adding an attribute table to composer, and deselecting some of the attributes, the resulting table show the same number of columns, but with empty cells.</p> <p>In the following image, only "numero" and "estado" attribute were selected.</p> <p><a href="https://www.dropbox.com/s/9hnnk2q6tn8jp00/map_composer_table.JPG?dl=1">https://www.dropbox.com/s/9hnnk2q6tn8jp00/map_composer_table.JPG?dl=1</a></p> <p>Working well in 1.8, therefore I think it's a regression.</p>

Having them same issue. would be great to have a fix on this soon as personally I'm having to use the master as a production version due to the massive feature differences between it and 1.8.

thanks!
