

QGIS Application - Bug report #7801

plugin path

2013-05-10 09:05 AM - stefano campus

<b>Status:</b>	Closed	
<b>Priority:</b>	Low	
<b>Assignee:</b>	Borys Jurgiel	
<b>Category:</b>		
<b>Affected QGIS version:</b>	master	<b>Regression?:</b> No
<b>Operating System:</b>		<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b> fixed
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 16693
<b>Description</b>		
it's not proper a bug...		
i see that the old path of plugin is showed in the qgis plugin manager window		

History

#1 - 2013-05-10 09:44 AM - Borys Jurgiel

- Assignee set to Borys Jurgiel

It's because the label text is hardcoded. The Plugin Manager is under extensive refactoring now, so I removed that label and I guess I'll include the path to plugin details, as QGIS now supports multiple plugin directories.

#2 - 2013-06-11 04:38 PM - Borys Jurgiel

- Resolution set to fixed

- Status changed from Open to Closed

Fixed in the new plugin manager
