

# QGIS Application - Bug report #7842

## layer properties / graduated / quantile / range ... sorting

2013-05-16 03:33 AM - robert kalasek

<b>Status:</b> Closed	
<b>Priority:</b> Normal	
<b>Assignee:</b>	
<b>Category:</b> Symbology	
<b>Affected QGIS version:</b> 1.8.0	<b>Regression?:</b> No
<b>Operating System:</b>	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	<b>Resolution:</b> worksforme
<b>Crashes QGIS or corrupts data:</b>	<b>Copied to github as #:</b> 16724
<b>Description</b>	
<p>i am using a shp and a joined dbf-table with some demographic data</p> <p>style: graduated Column: a real 19/11 field from the joined dbf-table value range of the data: 0.000 - 646.4222</p> <p>classification of that column results in a wrong set of class braekes (see bug descriptin of "Bug #7841") lower value of the classification starts at 5.000 instead of 0.000</p> <p>my personal workaround: adding a class from 0.000 to 5.000</p> <p>sorting of the resulting classification by clicking into "Range" returns an incorrect result ... see attached image</p>	

### History

#### #1 - 2013-05-16 03:50 AM - Nathan Woodrow

Have you tested the latest dev build?

#### #2 - 2013-05-16 06:57 AM - Giovanni Manghi

- Affected QGIS version changed from master to 1.8.0
- Status changed from Open to Feedback
- Category set to Symbology

Please try QGIS master, it should work fine... except for #7843

works fine in qgis master ...

my problem is that i have to do a lecture for students with 1.8. ... since that version is installt in our computer labratory

thx for the information anyway  
and 1.9 looks really fine !!!

**#4 - 2013-05-16 09:34 AM - Giovanni Manghi**

- Status changed from Feedback to Closed
- Resolution set to worksforme

*works fine in qgis master ...  
my problem is that i have to do a lecture for students with 1.8. ... since that version is installt in our computer labratory*

you can show both the bug and also the fix, and so show that qgis is a quite dynamic project :)

cheers!
