

QGIS Application - Bug report #7867

Once you change symbology, you can no longer edit the attributes with "edit feature form" after re-loading the project

Pull Request or Patch supplied:		Resolution:
Crashes QGIS or corrupts data:		Copied to github as #: 16742
Description		
After adding a new PostGIS layer and changing the style settings for that layer or loading a saved style for a layer, you can no longer edit the attributes of an item in that layer (after closing and reopening the project).

- Status changed from Open to Feedback
- OS version changed from 12.04 LTS \
- \\ to 12.04 LTS

Hi, I cannot confirm the issue, I'm on Ubuntu too. Can you be more specific about the steps to replicate the issue? Thanks!

PS

What QGIS version?

#3 - 2013-05-21 06:11 AM - Jeff Cameron

- File Attributes\_Window.jpeg added

Sure thing. I'm using version 1.9. Any time I add a layer I can select that layer, put it in edit mode and then using the arrow with the i...(identify results?) click on an object in that layer and it will bring up a window that says Identify Results in the title bar. From there you can click on the drop down arrow next to (Actions) and it will bring up a window that allows you to edit the Attributes for that item.

If I add a layer and then edit it's style, say change the color of it, and then save the project, close qgis and come back in, I can no longer go through the previous steps to edit the attributes of an item in the just added layer. The Attributes window that pops up will be greyed out.

- Subject changed from *Once you load a .qml file, you can no longer edit the attributes to Once you change symbology, you can no longer edit the attributes with "edit feature form" after re-loading the project*
- Target version set to *Version 2.0.0*
- Priority changed from *Normal* to *Severe/Regression*

Seems a regression to me. I'll check 1.8.

**#5 - 2013-05-21 11:08 AM - Jeff Cameron**

It doesn't do it in 1.8 and didn't start doing it in version 1.9 until Friday May 17, 2013.

**#6 - 2013-05-24 06:04 AM - Matthias Kuhn**

- Status changed from *Feedback* to *Closed*

Fixed in changeset commit:"43631982e7fdf8ffb42d54ce50b552b574b897a1".
