QGIS Application - Bug report #7896
Keyboard Shortcuts broken

2013-05-24 03:25 PM - Kai Borgolte

Status:	Closed		
Priority:	Normal		
Assignee:			
Category:	GUI		
Affected QGIS version:	1.8.0	**Regression?:**	No
Operating System:	Windows	**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	invalid
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	16769

Description

In my installations of QGIS 1.8.0-Lisboa all keyboard shortcuts have no modifier by default. For example, the commands 'Refresh' and 'Add Raster Layer' both have default shortcut 'R', and so both are not working. I installed QGIS on both Windows XP and Windows 8 with german localization.

History

#1 - 2013-05-26 01:45 AM - Kai Borgolte

I installed 1.9.0-Master now. I see this issue was (silently) repaired.

Does the stable version get no updates? Then this ticket may be closed.

#2 - 2013-05-26 01:47 AM - Giovanni Manghi

- Resolution set to invalid

- Status changed from Open to Closed
