Pull Request or Patch supplied:	Resolution:
Easy fix?: No	Copied to github as #: 16788
Description	
<p>Now that we again have global layer opacity it is important that the GetProjectSettings reply also mentions the global layer value so that a client can adjust the slider value accordingly and make valid GetMap requests.</p> <p>It would be good on the layer element - something like:</p> <p>...</p> <pre><Layer queryable="1" visible="0" layerOpacity="120"></pre> <p>...</p>
