does not happens here on the same platform, is confirmed?

#3 - 2013-06-02 10:11 PM - Denis Rouzaud

Well, on my side I confirm.

#4 - 2013-06-06 09:06 AM - Regis Haubourg

Not confirmed here on osgeo4w with extract nodes

#5 - 2013-06-07 04:02 AM - Matthias Kuhn

Works fine here on Fedora 18 / master (Debug) as well.

any idea what to look for?

is it a problem of my OS? Although, I only experience this in QGIS. Qt related?

to start can't you try on another box/virtual machine, so we can confirm is a local issue?

I have noticed the same bug in Qt Designer. So it should not be QGIS specific. But very weird though, and very annoying too!

Closing this, as it seems not to be QGIS specific.

If somebody else confirms or you have evidence, that it is QGIS related, please reopen.
