Pull Request or Patch supplied:	Resolution: duplicate
Crashes QGIS or corrupts data:	Copied to github as #: 16850

Description

The Orfeo Toolbox's Pansharpening function doesn't when inputting raster with paths containing spaces (i.e. C:\My rasters\lone.tiff). Should be easy to fix. Might be worth making sure other orfeo toolbox functions are space friendly.

(For the record, this is plan C for pansharpening within QGIS :))
