Crashes QGIS or corrupts data: No	Copied to github as #: 16859
Description	
<p>I try to use the function (v.clean, v.cleanadvance and r.circle) in SEXTANTE toolbox. SEXTANTE says: MISSING dependency. This algorithm cannot be run. :-(. Is strange because I can run the same function using the GRASS Qgis plugin. The error message refers to this page http://docs.qgis.org/html/en/docs/user_manual/sextante/3rdParty.html but I receive an 404 error.</p>

it seems that GRASS is not correctly configured in your computer...

I have updated the link, though
