QGIS Application - Bug report #8108
'Select by location' does not show selection on map

2013-06-18 10:25 AM - Jakob Lanstorp

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:				
Affected QGIS version:	master	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**		
Crashes QGIS or corrupts data:		**Copied to github as #:**	16943	

Description

If one runs a 'Select by location' in QGIS 1.9.0-Master, the map is not updated with the new selection. If you, after running the algorithm, manually press the Refresh map button the selection becomes visibly.

it works fine here with a build from yesterday on Linux. What build are you using? platform?

Tested it on Ubuntu 12.10 with a QGIS build from today and the problem is gone :)

(If you access the algorithm from SEXTANTE the problem is still there. I have moved this bug to the SEXTANTE HUB)
