

QGIS Application - Bug report #8122

Scroll bar in new plugin manager doesn't work properly

2013-06-19 11:00 PM - Alister Hood

Status: Closed	
Priority: Low	
Assignee: Borys Jurgiel	
Category: Plugin Manager	
Affected QGIS version: master	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution:
Crashes QGIS or corrupts data:	Copied to github as #: 16955

Description

In QGIS master, install a plugin with a description which is taller than fits in the window, so you need to scroll down to finish reading it (e.g. the "Value Tool" plugin).

Try to scroll the description by clicking and dragging the scroll bar - it doesn't work. You need to scroll with the mouse wheel or the arrow buttons... but what if your machine has neither? ;)
