

QGIS Application - Bug report #8137

The plugin manager of qgis-dev don't use the proxy settings

2013-06-23 10:01 AM - aperi2007 -

Status:	Closed	
Priority:	Severe/Regression	
Assignee:		
Category:	Plugin Manager	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 16967
Description		
<p>Hi,</p> <p>with qgis-dev.</p> <p>The proxy settings of options->network seem don't be used by plugin manager to retrieve the list. It simply go in timeout.</p> <p>Instead it is recognized and used from other components like for example the Layer WMS provider, that connect and get the maps.</p> <p>If I use a direct internet connection instead the plugin manager retrieve the list.</p>
