

QGIS Application - Bug report #8155

[QGIS-Server] The parameter PROPERTYNAME does not filter attributes

2013-06-25 06:17 AM - René-Luc ReLuc

Status: Closed	
Priority: Normal	
Assignee: René-Luc ReLuc	
Category: QGIS Server	
Affected QGIS version: master	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution: fixed
Crashes QGIS or corrupts data:	Copied to github as #: 16982
Description	
<p>In the OGC standard, the parameter PROPERTYNAME is used to filter attributes in the request getFeature. In version 1.8 this parameter works. Because of changes in the vector API, this parameter does not filter attribute.</p>
