QGIS Application - Bug report #8234
Colour of markers for editing wrong and incoherent

2013-07-07 11:11 PM - Paolo Cavallini

Status:	Closed		
Priority:	Normal		
Assignee:			
Category:	Digitising		
Affected QGIS version:	master	**Regression?:**	No
Operating System:		**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	duplicate
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	17046

Description

During edits, if choosing crosses as markers, vertices are marked in red, errors in green. This is counterintuitive, as green is usually associated with "go" and red with errors, and incoherent, because topology checker plugin marks errors in red.
Trivial to fix.
