

## QGIS Application - Bug report #8297

### Clear a filter created with advanced filter causes a parsing error in the attribute table

2013-07-14 04:18 PM - Pedro Venâncio

<b>Description</b>	
<p>When I clean a filter created with Advanced Filter in the attribute table, and do apply, it does not show all the records again, and shows a parsing error. Doing the same with Column Filter, it works as expected.</p> <p>I've made a screencast to illustrate the situation: <a href="http://goo.gl/VPVe9">http://goo.gl/VPVe9</a></p> <p>Nathan has confirmed the problem in this thread <a href="http://osgeo-org.1560.x6.nabble.com/Advanced-filter-in-the-attribute-table-td5066323.html">http://osgeo-org.1560.x6.nabble.com/Advanced-filter-in-the-attribute-table-td5066323.html</a> and according to him:</p> <p>It's trying to eval an empty expression which can't really work. The correct behavior would be to change the filter back to Show All Features if the expression is null and the user presses Apply.</p>	

#### Associated revisions

**Revision 85034e9a - 2013-07-15 03:25 PM - Nathan Woodrow**

Fix #8297. Select all when expression is blank

#### History

Should be a blocker, or not?

**#2 - 2013-07-15 06:25 AM - Anonymous**

- Status changed from Open to Closed

Fixed in changeset commit:"85034e9a0c8e3ad18bfa30f27d3051369b77a245".

**#3 - 2013-07-15 11:52 PM - Pedro Venâncio**

Fix confirmed!

Thank you very much Nathan!
