

QGIS Application - Bug report #8298

CRS change with recently used CRS makes no effect in the first choice

2013-07-14 05:03 PM - Pedro Venâncio

Status: Closed	
Priority: Normal	
Assignee: Tim Sutton	
Category: GUI	
Affected QGIS version: master	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch Applied: Yes	Resolution:
Crashes QGIS or corrupts data: No	Copied to github as #: 17094
Description	
<p>When I add WMS layers and try to change the CRS, the first choice in the recently used CRS, makes no effect.</p> <p>I've made a screencast to illustrate the situation: http://goo.gl/aVREL</p> <p>This also happens to me with the CRS change of other types of layers besides WMS, but with a less regular pattern, ie, does not always happen and I can not see the pattern to happen a few times and others not.</p>

Fix #8298 ignored first selection in projection selector

History

#1 - 2013-07-15 05:18 AM - Giovanni Manghi

certainly a regression and very annoying from a user point of view.

#2 - 2013-08-15 09:05 PM - ramon .

- File GeorefSelection.png added

this also applies to the target srs dialog in the Georeferencer

Open georeferencer Settings->Transformation Settings->Select Target CRS

#3 - 2013-08-16 01:28 AM - Giovanni Manghi

- *Category set to GUI*
- *OS version deleted (Xubuntu 12.04)*
- *Operating System deleted (Linux)*

This should really be a blocker as it is a regression and make work difficult.

#4 - 2013-10-28 02:19 PM - Richard Duivenvoorde

This: #8959 now closed issue is about the same problem.

#5 - 2014-01-10 01:43 AM - René-Luc ReLuc

- *Assignee set to René-Luc ReLuc*
- *Pull Request or Patch supplied changed from No to Yes*
- *% Done changed from 0 to 90*
- *Target version changed from Version 2.0.0 to Future Release - High Priority*

If the developer, doesn't selector a default CRS, the projection selector selects the last recent selected CRS.
