QGIS Application - Bug report #8324
Text positioning: vertical align "top" interpreted as "cap"

2013-07-19 12:15 AM - Andreas Neumann

Status:	Closed			
Priority:	Normal			
Assignee:	Marco Hugentobler			
Category:	Labelling			
Affected QGIS version:	master	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:	No	**Resolution:**		
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	17115	

Description

When placing text, the vertical aligning has an unsupported value:
It seems that both "top" and "cap" are currently interpreted the same. The "Cap" value seems to work ok, whereas the "top" value is wrong.

This issue leads to inconsistent rendering if you exchange data with other GIS systems that also support these 5 vertical align values.

See attached picture with an explanation of the values.
