

QGIS Application - Bug report #8367

"missing font text" red message on layer labeling settings

2013-07-26 06:35 PM - Pedro Venâncio

<b>Status:</b>	Closed	
<b>Priority:</b>	Normal	
<b>Assignee:</b>	Larry Shaffer	
<b>Category:</b>	Labelling	
<b>Affected QGIS version:</b>	master	<b>Regression?:</b> No
<b>Operating System:</b>	Ubuntu	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b> fixed
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 17144
<b>Description</b>		
<p>A red message ("missing font text") appears whenever I choose a size multiple of three in the layer labeling settings dialog (please see the attached image). Despite the message, everything works fine and if I do "Apply", the message disappears and the size is applied to the label. Choosing a multiple of three again, the message reappears.</p>		

History

#1 - 2013-07-27 07:18 AM - Giovanni Manghi

- OS version deleted (Xubuntu 12.04)
- Assignee set to Larry Shaffer
- Operating System deleted (Linux)

On Windows I see it all the time, and does not go away regardless the font and the font size.

#2 - 2013-07-28 01:53 AM - Jürgen Fischer

- Resolution set to fixed
- Status changed from Open to Closed

fixed in commit:51dbbe13

#3 - 2013-07-28 05:08 AM - Pedro Venâncio

- Status changed from Closed to Reopened
- File labeling\_settings\_font\_is\_missing.png added

Hi Jürgen,

Now the opposite is happening, ie, it shows the message "Font is missing" with all sizes, except for the multiples of three.

#4 - 2013-08-31 01:53 PM - Larry Shaffer

Please verify if commit commit:4c402731 fixes the issue.

#5 - 2014-01-30 11:40 PM - Paolo Cavallini

- Target version changed from Version 2.0.0 to Future Release - High Priority

#6 - 2014-01-31 10:51 AM - Pedro Venâncio

- Status changed from Reopened to Closed

Hi,

This was already fixed.

Thanks Larry!
