

QGIS Application - Bug report #8400

crash opening layer properties of a freshly inserted wms layer

2013-08-02 03:58 AM - Jonathan Moules

Status: Closed	
Priority: High	
Assignee:	
Category:	
Affected QGIS version: master	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied: No	Resolution:
Crashes QGIS or corrupts data: Yes	Copied to github as #: 17172
Description	
<p>A repeatable QGIS crash. Windows; weekly a13cdf8</p> <ul style="list-style-type: none">- Add WMS layer.- Connect- Select layer- Add- Close dialog- Double click on layer in layers list. Qgis crashes. <p>The error is an "exception" -> "bad allocation"</p> <p>I can't find any QGIS log files in my install to give more information.</p>	

History

#1 - 2013-08-02 04:30 AM - Salvatore Larosa

- Status changed from Open to Feedback

No crashes here by following the above steps. (works fine even on WindowsXP)

#2 - 2013-08-02 04:41 AM - Jonathan Moules

- File *qgis-20130802-115354-264-4500-a13cdf8.7z* added

After further experimentation it seems to only fail with one particular layer (it just happened to be the only layer I actually tested).

I've attached the dump file it creates which I've now found.

#3 - 2013-08-02 04:44 AM - Matthias Kuhn

Would you be able to share the layer you experience problems with?

#4 - 2013-08-02 08:42 AM - Giovanni Manghi

also not confirmed here on both linux and Windows, please share the WMS url.

#5 - 2013-08-02 08:42 AM - Giovanni Manghi

try also disabling all the plugins and try again.

#6 - 2013-08-02 08:49 AM - Jürgen Fischer

- *Subject changed from Repeatable QGIS crash to crash opening layer properties of a freshly inserted wms layer*

#7 - 2013-08-05 02:02 AM - Jonathan Moules

The WMS is on the internal corporate Network so I can't share it.

Can you not see what the problem is from the dump file?

Any plugins enabled are the default ones. Disabling them makes no difference.

#8 - 2013-08-15 04:00 AM - Jonathan Moules

Happens with d61cb25 too. It did work once and then it didn't, so it seems to be intermittent.

#9 - 2014-01-26 10:58 AM - Giovanni Manghi

- *Priority changed from Normal to High*

- *Target version set to Future Release - High Priority*

Still true?

#10 - 2014-02-05 03:39 AM - Jonathan Moules

- *Status changed from Feedback to Closed*

Seems to be fixed now. (using 5192e8d)

I'll re-open if it happens again.
