

QGIS Application - Feature request #8409

QGIS identify form doesn't allow to copy attribute value

2013-08-03 11:00 PM - marisn -

Status:	Closed	
Priority:	Low	
Assignee:		
Category:		
Pull Request or Patch supplied:	No	Resolution: fixed/implemented
Easy fix?:	No	Copied to github as #: 17180
Description When QGIS identify tool is in "open form for single feature" mode used for non-editable layer, it's not possible to copy any values from shown form. It is possible to copy values when layer editing is enabled or when multiple objects are identified and thus the standard identify dialog is used. Tested with 1.9.0-Master QGIS code revision e3b8b41		

History

#1 - 2013-10-30 11:39 PM - Denis Rouzaud

This only concerns line or text edit. It would require to use read-only instead of disabled.
Is this feasible without troubles?

#2 - 2014-01-30 11:40 PM - Paolo Cavallini

- Target version changed from Version 2.0.0 to Future Release - High Priority

#3 - 2015-09-02 01:53 AM - Harrissou Santanna

I think this request should be closed since the feature has been added.

#4 - 2015-09-02 03:47 AM - Nyal Dawson

- Resolution set to fixed/implemented
- Status changed from Open to Closed
