

# QGIS Application - Bug report #844

## WMS layers support only PNG format

2007-11-30 09:20 AM - godofredo -

<b>Status:</b> Closed	
<b>Priority:</b> Low	
<b>Assignee:</b> Marco Pasetti -	
<b>Category:</b> Web Services clients/WMS	
<b>Affected QGIS version:</b>	<b>Regression?:</b> No
<b>Operating System:</b> Windows	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	<b>Resolution:</b> fixed
<b>Crashes QGIS or corrupts data:</b>	<b>Copied to github as #:</b> 10903
<b>Description</b>	
In windows wms does not support jpeg and gif only png. This is caused by Qt not being compiled with jpeg and gif support.	

### History

Marco,

Can you let use know if your QGIS 0.11 build is going to include support for jpeg and gif?

Replying to [comment:1 msieczka]:

Marco,

Can you let use know if your QGIS 0.11 build is going to include support for jpeg and gif?

JPEG: yes

GIF: no

do you know if we have a page similar to this: [http://grass.osgeo.org/wiki/WinGRASS\\_Current\\_Status#ToDo](http://grass.osgeo.org/wiki/WinGRASS_Current_Status#ToDo) ?

It would be very important for me to have a consistent summary/to-do list to refer to when I work on the project

Marco

Cool jpeg is supported know. For the WIKI I don't know (I help in QGIS dev ad hoc only).

#### #4 - 2008-08-20 02:28 AM - Marco Pasetti -

It's a packaging error due to the lack of qt imageformats dlls
