

QGIS Application - Bug report #8499

OWS tab - adding CRS restrictions not reliable

2013-08-22 03:01 AM - Andreas Neumann

Status: Closed	
Priority: Normal	
Assignee: Tim Sutton	
Category: QGIS Server	
Affected QGIS version: master	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied: Yes	Resolution: worksforme
Crashes QGIS or corrupts data: No	Copied to github as #: 17261
Description	
In Project Properties, OWS tab: when adding CRS to the CRS restrictions sometimes I only get empty entries. Try to add several CRS - some are added correctly, some not. You only get an empty line in the list. When you try to add it again, it claims it was already added.

#2 - 2014-01-31 02:30 AM - René-Luc ReLuc

- Assignee changed from René-Luc ReLuc to Tim Sutton

A patch has been supplied with a pull-request.

The code change is only 5 lines.

Someone to review ?

#3 - 2015-06-12 06:35 AM - Andreas Neumann

- Status changed from Open to Closed
- Resolution set to worksforme

Issue does not seem present in current versions anymore. Closing now, as it seems to work fine.
