QGIS Application - Bug report #8506
In the Label Section- option Type case - Capitalize first letter don't work

2013-08-22 04:38 PM - aperi2007 -

Status:	Closed		
Priority:	Normal		
Assignee:	Larry Shaffer		
Category:	Labelling		
Affected QGIS version:	master	**Regression?:**	No
Operating System:		**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	duplicate
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	17266

Description

as repeorted.

In the label properties, when choose to set the "Type case" ,
the option "Capitalize first letters" don't work, it return always the all uppercase letters.

Instead the option "all lowercase" work correctly.

Andrea.

Ok,

more probably is a question of my windows.

Also I found an easy workaround defining on my dbms a view with case transformation.

So I close the ticket.

Thx,

This was closed prematurely, it does not work as advertised. The problem is that the function assumes the input is already lowercase, whereas official
sources e.g; MassGIS; may store text as all uppercase. The solution is to lc() the string before ucfirst().
