Description		
QGIS just shift operation, but the scale is changing, this is a bug!		

History

#1 - 2013-08-28 12:57 AM - ramon .

If I understand, the complaint is:

In the map window, panning the map causes a change in the scale of the map.

If this is correct I can't replicate on either today's nightly or yesterday's.

Suspect related to incorrect CRS, but having a communication gap.
