

QGIS Application - Bug report #8550

Huge icons on buttons in browser panel

2013-09-02 05:23 AM - Alister Hood

Status:	Closed	
Priority:	Low	
Assignee:		
Category:	GUI	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: worksforme
Crashes QGIS or corrupts data:	No	Copied to github as #: 17300
Description		
See the attached screenshot. Do the buttons in the browser always have such huge icons, or is it only on my system?

Is this still an issue? That toolbar has been substantially reworked since this was reported

#2 - 2016-02-02 09:59 PM - Alister Hood

I haven't been able to successfully build on linux for a while now - I'll have to have another try. I can see on Windows these icons follow the preferences, but are a bit smaller for some reason. But there are icons elsewhere that still don't follow the preferences at all :)

#3 - 2016-05-23 07:44 AM - Giovanni Manghi

- Resolution set to worksforme

- Status changed from Feedback to Closed

Closing for lack of feedback, please reopen if necessary
