

QGIS Application - Feature request #858

Use logical operators to specify transparency

2007-12-07 04:10 PM - cgs_bob -

Status: Closed	
Priority: Low	
Assignee: ersts -	
Category: Rasters	
Pull Request or Patch supplied:	Resolution: fixed
Easy fix?: No	Copied to github as #: 10917
Description	
It would be great if you can specify transparent colors using logical operators. For instance, if I have a set of elevation values that are less than -100 feet and I want to ignore them, I could enter "<= -100).

I like this idea and will try to implement it post 0.9.2

#2 - 2010-06-11 09:34 PM - Paolo Cavallini

- Resolution set to fixed

- Status changed from Open to Closed

With multi-scale renderer, you can do that now. Please reopen it if you're not satisfied with the solution
