# QGIS Application - Bug report #8647

# Labeling with 'Capitalize first letter' does not work with all Caps

2013-09-22 11:29 PM - Devdatta Tengshe

Status:ClosedPriority:NormalAssignee:Larry ShafferCategory:Labelling

Affected QGIS version:masterRegression?:NoOperating System:Easy fix?:No

Pull Request or Patch shapplied: Resolution: duplicate
Crashes QGIS or corrupts data: Copied to github as #: 17378

#### Description

I have tried this with a shapefile as well as a PostGIS layer. I have a layer with a field which has text in all Caps. For example the text is 'ARUNACHAL PRADESH'

When use the 'Capitalize first letter' in Labels>>Text>>TypeCase, the label which is generated is in all caps. We should get 'Arunchal Pradesh', but the output is 'ARUNACHAL PRADESH'. (Do note that the 'All Lowercase' option works as expected)

This bug not happen when the input field is in all small case, or in mixed case.

#### History

### #1 - 2013-09-23 12:05 AM - Devdatta Tengshe

You can reproduce this with the following GeoJSON:

```
{
  "type" : "FeatureCollection",

"features" : [{
      "type" : "Feature",
      "id" : 0,
      "properties" : {
            "name" : "FOO BAR",
            "m_name" : "Foo bAr",
            "s_name" : "foo bar"
      },
      "geometry" : {
            "type" : "Point",
            "coordinates" : [20, 50]
      }
    }
}
```

Also note that when the input is "Foo bAr", the output with 'Capitalize first letter' is "Foo BAr" and not "Foo Bar" as expected.
