

QGIS Application - Bug report #870

Debian Package Should Suggest python-sip4

2007-12-14 12:43 PM - David A- Riggs -

Status: Closed	
Priority: Low	
Assignee: nobody -	
Category: Build/Install	
Affected QGIS version:	Regression?: No
Operating System: Debian	Easy fix?: No
Pull Request or Patch supplied:	Resolution: fixed
Crashes QGIS or corrupts data:	Copied to github as #: 10929

Description

<https://svn.qgis.org/trac/browser/trunk/qgis/debian/control>

0.9.1-1 Debian packages already have a Build-Depends on 'python-sip4', but this package is missing from the Suggests line for runtime. This package is required for Python support in QGIS.

History

- Resolution set to fixed
- Status changed from Open to Closed

Ive added python-sip4 to the control file so this will be implemented in the next log of packages I make. Many thanks. Committed in commit:275160ff (SVN r8060).

Regards

Tim
