What platform?  They are there for me.

Debian, self packaged with debian/rules. Do not know whether this could be the source of the problem (which should be solved anyway, only less severe).

Strange, I have both here (Slackware64 14.1, self-compiled master). Can anyone test on other platforms?

On Ubuntu 12.04 the License panel is also empty

Looks like packaging problem. Is /doc/LICENSE file available in QGIS install path (e.g. /opt/qgis2.2/share/qgis/doc/LICENSE)?
