

QGIS Application - Bug report #8720

Font for layer city_data.face_seed was not found (AlArabiya)

2013-09-29 07:44 AM - Sandro Santilli

Status:	Closed	
Priority:	Normal	
Assignee:	Sandro Santilli	
Category:	DB Manager	
Affected QGIS version:	2.0.1	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: fixed/implemented
Crashes QGIS or corrupts data:	No	Copied to github as #: 17438
Description		
<p>The default style for face_seed layer (maybe all label layers?) in topology viewer subplugin of db_manager seems to be useing a weird font (AlArabiya). Noisy, for probably no reason...</p> <p>Besides, I don't remember I ever explicitly selected a font, maybe AlArabiya was the default (first alphabetically?) found while developing the plugin (later disappeared).</p> <p>What's a good value to use (more likely to be found?) in the saved style ?</p> <p>\\cc @lrssvt (can other devs be referenced like this?)</p>		

History

#1 - 2014-03-03 07:33 AM - Sandro Santilli

- Resolution set to fixed/implemented
- % Done changed from 0 to 100
- Target version set to Version 2.2
- Status changed from Open to Closed

This was fixed before 2.2.0 went public.

Maybe with commit:24e53f4bfb9046722f93a8a7cbd00c1308ae3db8
