

QGIS Application - Bug report #8764

Default file path and return to last used directory

2013-10-03 04:52 PM - Johanna Botman

Status: Closed	
Priority: Normal	
Assignee:	
Category: GUI	
Affected QGIS version: master	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution:
Crashes QGIS or corrupts data:	Copied to github as #: 17470
Description	
<p>I'd like to be able to set the default file path in Composer AND make it go back to the last known location when selecting files. Currently, if I want to add an image or icon, it takes me back to it's own 'home' location and I have a lot of clicking to do before I get back to the location I used last time.</p>

[composer] Remember last used folder for picture and marker dialogs (fix #8764)

History

#1 - 2013-10-04 04:36 AM - Giovanni Manghi

- Assignee deleted (Nyall Dawson)
- Subject changed from Default file path in Composer and return to last used directory to Default file path and return to last used directory
- Category changed from Map Composer/Printing to GUI

This is a general issue and not only one about the composer. There are still many places in QGIS where the browsing star point is not ideal and many tools that do not remember the last used folder.

anyway this issue was already raised and there are other tickets about it, but cannot find them now. Please search for them and close this as duplicate.

#2 - 2013-10-04 04:36 AM - Giovanni Manghi

- Status changed from Open to Feedback

#3 - 2014-06-23 04:34 AM - Giovanni Manghi

- Affected QGIS version changed from 2.0.1 to master

#4 - 2014-06-23 04:34 AM - Giovanni Manghi

- Status changed from Feedback to Open
