<b>Description</b>		
<p>Good Morning QGIS Community,</p> <p>The print composer in QGIS 2.0.1 has added a lot of new feature which I think are great. I have, however, come across a bug concerning the zebra map frame style. In the composer window it looks fine, but when you export to PDF or image, the outer line of the zebra effect disappears. I have attached two examples so you can see what I mean.</p> <p>Many Thanks,</p> <p>David</p> <p>P.S sorry about the poor cartography.</p>		

Associated revisions

Revision aa3e40a0 - 2013-12-28 11:52 PM - Nyal Dawson

[FEATURE][composer] Add controls for changing zebra frame colors and line thickness, fix output of zebra style grids (fix #8767)

History

#1 - 2013-10-04 03:28 AM - Giovanni Manghi

- OS version deleted (7 SP1)
- Operating System deleted (Windows)
- Target version set to Future Release - High Priority

confirmed also on Linux.

#2 - 2013-12-28 02:53 PM - Nyal Dawson

- Status changed from Open to Closed

Fixed in changeset commit:"aa3e40a0ebfaab34d3405dcbee5a9d72dfb9ab89".
