

## QGIS Application - Bug report #8768

### US English locale listed twice

2013-10-04 06:25 AM - Jonathan Moules

<b>Status:</b>	Closed

<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b> not reproducible
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 17474
<b>Description</b>  In Settings -> Options -> Locale, on the drop-down for "override system locale" US English is listed twice. Once with a flag, once without. Both seem to be the same.  Also, strictly speaking, if it is US English, should the flag not be a US flag, rather than half-and-half UK/US flag? British English is most assuredly different; we can spell metre for one thing. ;-)		

#### History

##### #1 - 2013-10-04 07:00 AM - Giovanni Manghi

- Target version set to Future Release - High Priority
- Category changed from Translations and international to GUI
- Assignee deleted (QGIS Translation Team)

##### #2 - 2017-05-01 01:09 AM - Giovanni Manghi

- Easy fix? set to No
- Regression? set to No

##### #3 - 2018-03-01 12:28 PM - Giovanni Manghi

- Status changed from Open to Feedback

Please test with a recent QGIS release (2.18 or 3), if the issue/request is still valid change the affected version accordingly, if is fixed/implemented then close the ticket. Thanks!

##### #4 - 2018-08-16 10:39 AM - Giovanni Manghi

- Status changed from Feedback to Closed
- Description updated
- Resolution set to not reproducible

Closing for lack of feedback.
