Crashes QGIS or corrupts data:	No	**Copied to github as #:**	17502

Description

When not in home network domain - qgis fails to to start with 0xc00000be error ("Kan de toepassing niet correct starten" - this application fails to initialize properly).
Happens with network and local (admin) user.

- Priority changed from High to Normal

#2 - 2014-02-08 01:46 AM - Jukka Rahkonen

Perhaps user's home directory is configured to be not on the local disk but on some network resource.

#3 - 2014-02-17 05:22 AM - Karin Praet

- Status changed from Open to Closed

Home directory is on the network.
I have recently changed to a Windows 7 64bit platform - and there I can open QGIS without a problem when disconnected from the network. So closing this issue.
