

QGIS Application - Feature request #8819

Default directory for File name edit widget

2013-10-10 04:46 PM - cgsbob -

Status: Closed	
Priority: Normal	
Assignee:	
Category: GUI	
Pull Request or Patch Supplied:	Resolution:
Easy fix?: No	Copied to github as #: 17512
Description	
<p>When I select the "File name" edit widget, the initial directory goes to the osgeo4w\bin directory.</p> <p>It would be nice if there was a way to specify a default directory for each widget. Then I would not have to change to my report directory each time I use a different feature.</p>
