

## QGIS Application - Feature request #882

### Add option to save symbology as file

2007-12-27 12:10 PM - cdavila -

<b>Status:</b> Closed	
<b>Priority:</b> Low	
<b>Assignee:</b> Tim Sutton	
<b>Category:</b> Symbology	
<b>Pull Request or Patch supplied:</b>	<b>Resolution:</b> duplicate
<b>Easy fix?:</b> No	<b>Copied to github as #:</b> 10941
<b>Description</b>	
It would be nice to have an option in <i>Layer properties-&gt;Symbology</i> tab to save the symbology in a file once you have set it as you like for a given layer, so that it is automatically applied if you load that layer in other project and also to be available to be used for a different layer through a <i>Browse</i> button in the dialog.

This is already mostly done and will be part of 9.2.

See <http://www.nabble.com/A-trip-down-memory-lane---avl-style-support-in-QGIS-to13767934.html>

##### #2 - 2007-12-30 07:30 PM - Gary Sherman

See #840

##### #3 - 2007-12-31 03:31 AM - cdavila -

- Resolution set to duplicate
- Status changed from Open to Closed

That's exactly what I asked for, so sorry for my duplicated report. I think this ticket can be closed, as it is included in #840
