<b>Crashes QGIS or corrupts data:</b>		<b>Copied to github as #:</b> 17513
<b>Description</b>		
<p>When I view the attributes of a feature that has a field with a "Value map" edit widget and that field is NULL, the first value associated with that edit widget is displayed rather than "NULL" or blank. When this feature is saved, all of the null fields of these "Value map" widgets now have the value of the first value in the widgets.</p>		

### History

#### #1 - 2013-10-11 12:39 AM - Giovanni Manghi

- Target version set to Future Release - High Priority
- Status changed from Open to Feedback

probably the issue has the same origin as #8818

#### #2 - 2014-01-26 12:03 PM - Giovanni Manghi

- Resolution set to worksforme
- Status changed from Feedback to Closed

seems ok on master. Please reopen if necessary.
