Description

Hi,

Just yesterday downloaded overnight qgis-dev build via os4geo installer.

qgis-dev can't start. I got the message message:

Problem signature:

and then

The application failed to initialize properly (0xc0000005)
Click Ok to terminate application

Tried to re-install Qt (from os4geo) but no luck.

Thank you
Mikhail

This is Vista, 32 bit.

Stock version (2.0.1) is still working OK.

History

I confirm this behavior with 2.1.0-23 on Windows XP 32bit SP3. I had to roll back to 2.1.0-21 . It does start ok.

#2 - 2014-06-21 05:49 AM - Jürgen Fischer

- Resolution set to worksforme

- Status changed from Open to Closed

probably meanwhile fixed.
