

QGIS Application - Bug report #8834

Style for layer spatialite

2013-10-14 10:13 AM - iacopo zetti

Status:	Closed		
Priority:	Normal		
Assignee:			
Category:	Map Canvas		
Affected QGIS version:	master		
Operating System:	Ubuntu		
Pull Request or Patch supplied:	No		
Crashes QGIS or corrupts data:	No	Regression?:	No
		Easy fix?:	No
		Resolution:	
		Copied to github as #:	17524
Description			
<p>When I try to modify the style for a spatialite layer of polygons the map is not correctly shown if I choose Categorize or Graduated Renderer. I see the legend in the legend windows, but the map disappears from the map canvas with Graduated and appears in one single color with Categorize. With the same layer exported as shp everything work perfectly.</p> <p>I tried with 2 computers, one with ubuntu and one with debian wheezy, same problem. Version 2.1 nightly built.</p>

History

#1 - 2013-10-17 05:29 AM - Josef Källgårdén

Confirmed on windows 7.

I also think this should be a blocker since it is a regression from QGIS 2.0.

#2 - 2013-10-23 01:58 AM - Matthias Kuhn

another candidate for commit:fa90fc9?

Please check if this is solved in the latest nightlies.

#4 - 2013-10-23 06:31 AM - Josef Källgårdén

Yes, seems to be fixed now.

#5 - 2013-10-24 07:03 AM - iacopo zetti

I tested the last nightlies and it's ok.
