QGIS Application - Bug report #8836
Default styles from postgis layers not loading

2013-10-14 10:55 AM - John Tull

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	Symbology			
Affected QGIS version:	2.0.1	**Regression?:**	No	
Operating System:	OS X	**Easy fix?:**	No	
Pull Request or Patch supplied:	No	**Resolution:**		
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	17525	

Description

In trunk builds, postgis layers are not loading default styles stored in the "Datasource database". I can manually load the style by selecting it in the datasource database, but I expected the layers to load with these default styles automatically. I think something has regressed with the application of default styles unless this is an intentional change.

it is working fine, at least here on qgis master and Linux.

#2 - 2014-02-11 12:35 AM - Jürgen Fischer

closing for the lack of feedback.
